GOVERNMENT OF MYSORE 48-24 E KAS

No. 542
Encl. one

Department of Archæology,

Mysore, 26th January 1948.

FROM

THE DIRECTOR OF ARCHÆOLOGY,
MYSORE.

To

The Education Secretary to the Government
of His Highness the Maharaja of Mysore, BANGALORE.

SIR,

ACCOMMODATION FOR THE ARCHAEOLOGICAL DEPARTMENT

I have the honour to state that in connection with the above subject Government directed in their Order No.E:6478 dated 25-4-1946 that the question of constructing a separate building for housing the Departme might be taken up for consideration later on.

But in Their Order No.E.446-49/Uni.19-44-10 dated 19-7-46 have directed that arrangements might be made to shift the Archaeological Department to a separate building with a view to provide enough accommodation for the Government Oriental Research Institute.

Owing, however, to the paucity of suitable buildings to locate the Department with all its sections adequately in one place, and in consideration of the need for shifting the photographic section of the Department from the University Library building, Government sanctioned that a portion of the District Board Office building might be engaged (Vide G.O.E.5623-26, Archy. 18-45-19 dated 27-1-1947). Accordingly many of the things pertaining to the section were transferred to the northern wing of the ground floor of the District Board office building and arrangements were made with the Engineering Department to convert the portion occupied into a dark room and studio. While the latter work was in progress, the President of the District Board stopped further execution of the work and inspite of repeated requisitions botn from this Department and the Executive Engineer and the Superintending Engineer has not allowed completion of the works and supply of water from the overhead tank. This state of things has prevented the photographic section of the Department from functioning properly and has held up all the publications of the Department, some of them even of an

urgent and very important nature. On the other hand the authorities of the Mysore University have been time and again asking us to vacate the portion occupied by us in the University Library. In your Memo No.E.3592 dated 17-11-47 you have also directed that we might shift from the University Library.

Under such circumstances the President of the District Board was approached by this Department several times to grant us the required facilities to help us push through the photographic work of the Departmen He has not complied and has forwarded, on the other hand, copy of a resolution passed by the members of the Board, in their meeting held on 5/6th November 1947 directing us to vacate the portion occupied by us. All our efforts to pursuade him to reconsider the situation have failed. Thus, at present, the plight of the Department is as follows:

1. We have to shift from the University Library as directed by Government
2. We have to shift from the District Board Office building as per their resolution, if the Government direct us to do so.
3. We have also to shift from the Oriental Library building.

No.3 may not be urgent; but Nos. 2 and 1 are of immediate concern, while there is urgent need for us to work expeditiously in connection with our publications and preparation of illustrations therefor, I therefore beg to submit that immediate permission may kindly be granted to this Department to engage two houses, Nos. 9 and 10, Yelwal Road, Mysore, which are side by side and together available for a rent of Rs.220/- per mensem. It would be possible to shift the entire Department with all its sections to these buildings and there would further be the advantage of effective supervision and watch and ward, though, for organising the Museum, there may be not be enough space. For the time being, however, we could somehow manage. Government may thus be graciously pleased to sanction this proposal at a very early date, since the owner, Mr.M.V.S.Vittal,B.A. does not choose to wait for more than 15 days for a decision.

It is requested that the matter may kindly be treated as urgent and orders conveyed. A plan of the buildings with measurements is enclosed for your kind perusal and approval.

4824 w.o. to President Dr. Bd. Mysore 29/3.

In continuation of this office letter No.644 dated 21st April 48 in connection with the above subject, I have the honour to forward herewith, for your kind perusal and favour of issuing immediate orders, a copy of letter No.C.74/47-48 dated 27th July 1948 received from the President, District Board, Mysore, urging me to vacate the portion occupied by this Department in the District Board Office building and stating that in the event of my not vacating it within 15th August 1948 he would take serious measures to cause the vacation. As I have on several occasions represented, the photographic section housed in a portion of that building is not at all functioning for want of water-supply and other facilities. Moreover the fact that the section is situated in a building separate from the office has been causing a good deal of inconvenience and want of proper control over the work of the section.

As represented by me, in detail, in my letter No.542 dated 26th January 1948, it is also necessary for us to shift from the Oriental Library Building by virtue of G.O.No.E.446-49/Uni.19-44-10 dated 19th July 1946 which directs that arrangements might be made to shift the Department to a separate building. I may mention here that the portion of the latter building in which the Department is housed at present is also absolutely insufficient for accommodating the Museum, the library, the office rooms, epigraphy section, numismatic section, antiquity room, laboratory, stock of publications, etc., etc.

I beg, therefore, to submit that under the circumstances

mentioned above, I may kindly be permitted to shift to a separate building sufficiently large to house the entire Department. There is such a building available to the west of the Teachers' College, Dewan's Road, Mysore. The owner/Sri.K.Nandibasappa Dharmaratnakara, merchant, Santhepet, Mysore, has agreed to let it out for a rent of Rs.350/- p.m. I enclose herewith a plan of the building for your kind perusal. In my opinion we could house the entire Department with all its sections and Museum in a satisfactory manner. The building too is situated in the heart of the city. I shall be grateful if permission is granted to occupy the building and shift the entire Department, there.

3. Immediate orders are solicited since the owner might dispose off the building otherwise and since under the circumstances mentioned by the President in his letter under reference it has become necessary for us to vacate the portion of the District Board Office.

Dear Sir,

Subject: Housing the Department of Archaeology.

Kind reference is invited to this office letter No.89 dated 21st August 1948. The House Rent Controller states that the building No.932, Sri Gopalakrishna Nilaya, Lakshmipuram, Mysore, might be occupied by this Department immediately since in such cases of occupation only 10 days' time is allowed as per rules and since the owners might not agree to let out the building to us after ten days. I shall be grateful therefore if immediate orders are kindly communicated.

Yours sincerely,

Archy 1-48-3

To

The Education Secretary to the Government of
His Highness the Maharaja of Mysore,
BANGALORE.

SIR,

Sub: HOUSING THE DEPARTMENT OF ARCHAEOLOGY.

I beg to report that as directed in G.O.No.E.2018-20/Archy. 1-48-2 dated the 1st September 1948 and as per the advise of the House Rent Controller, Mysore City, I have taken over the building No.932 'Sri Gopala Krishna Nilaya', Lakshmipuram, Mysore, with effect from the afternoon of the 2nd September 1948 for housing the Department of Archaeology and have vacated the portion occupied by this Department in the District Board Office building, Mysore and the Oriental Research Institute building, Mysore. In this connection I had to incur an expenditure of Rs.498-15-6 towards cost of shifting from the two buildings and I request that Government may graciously be pleased to convey their approval in this behalf.

I have duly asked the owners of the building to effect certain repairs and alterations necessary to enable this office to function properly. The rent, I understand, will be fixed by the House Rent Controller after the execution of these repairs.

In the meanwhile, however, I request you to be so good as to convey your sanction in respect of the following:-

1) To meet the Electric charges, as and when they fall due.

The Electric Department may kindly be addressed to charge this Department for consumption of electricity at the concession rates usually allowed in the case of all Government Departments.

2) Since there is already a telephone line leading to the building, I may be permitted to have two telephones, one on the

Director's table and the other in the office room.

3) A sum not exceeding Rs.5/- may be permitted to be paid towards scavenger's allowance every month.

4) Since there are a good number of halls and rooms both in the main building and in the Out-house, the services of a sweeper are necessary. It is requested that one post of sweeper in the scale of a peon (plus Dearness allowance) may kindly be sanctioned.

5) Permission may kindly be granted for equipping the Museum and the Photographic Section with suitable electric fittings and fans at a cost not exceeding Rs.1000/-. These fittings and fans will be removed from the building when it is vacated by the Department and will be utilised wherever the Department is housed in the coming years.

Yours faithfully,

Department of Archæology,

Mysore, 10th January 1949.

FROM

THE DIRECTOR OF ARCHÆOLOGY,
MYSORE.

To

The Education Secretary to the Government of
His Highness the Maharaja of Mysore, BANGALORE.

SIR,

SUBJECT: Housing the Department of Archaeology.

***

With reference to your letter No.S.6433/Archy.1-48-4 dated 23rd December 1948 in connection with the above subject, I have the honour to submit as follows:

(1) The Department had to be shifted from two separate buildings viz: the Oriental Research Institute Building and the District Board Office building and a considerable number of articles of furniture like chairs, almirahs, tables, heavy drawing tables, museum show cases, iron safes and thousands of photographic negatives and blocks, photo and drawing materials and equipment, thousands of books and office records had to be shifted while the fragile antiquities required very careful handling during packing, loading and unloading. The work of shifting occupied us for a period of 8 days during which period about 20 men had to be employed. The labour charges worked up to Rs.300/- while the details for carthire and lorry hire as also the cost of petrol and packing material were as follows:

Lorry-hire for 9 trips	...	Rs.72- 0- 0
Carthire for 40 trips.	...	Rs10 -0- 0
Petrol 11 gallons	...	23- 8- 9
Kraft paper	...	3-6- 9
	Total	Rs198-15-6

(2) The building in which the Department is at present located suffers from want of ventilation and light. The central hall in which the museum is arranged for the benefit of the students and the public is very dark so that it has to be fitted up with ceiling tube lights and lights inside show cases. The cowshed and its adjacent rooms have to be utilised for the work of the photographic section and therefore will have to be

provided with at least 3 electric fans and necessary electric arrangements for the dark roo . All the rooms in the building require to be provided with powerful bulbs and electric fans and bracket lights (particularly in the Library hall). I have stated that the cost of all these would not exceed Rs.1000/ After sanction is received from Government, estimates will be called for and the expenditure will be incurred as per rules.

(3) The building is inside a large compound and consists of about 8 rooms in the out-house and 14 in the main building in additi to the large central hall and its three verandahs and three porticoes. The show cases of the museum have ~~xii~~ to be cleaned every day. It would be impossible for one person to sweep all the rooms, clean the show cases and also keep the large open space around the building neat and tidy. The hands of the seven peons attached to the office are already full with heavy work. Two of them are attached to the Photographic Section; two are detailed for cleaning the show cases and dust the almirahs, tables, etc.; two keep watch during nights and attend to office work while one is used as a Cycle Orderly. Indeed while 2 or 3 of these are taken out on tours there will not be enough number of peons for work at headquarters. While the office was located in the Oriental Research Institute building there was not much difficulty felt for night watch since there were also the peons of the Oriental Research Institute working. But at the new building in which the office is housed at present at least two persons have to be detailed for effective watch and ward. Hence, it is requested that another peon's place may kindly be sanctioned for the Department to enable me to keep neat and tidy not only the building and its out-house, but also the large oper space around the building where I propose to ~~open~~ organise an Open-Air Museum of architecture, sculpture and ~~epigraphical~~ lithic records.

Yours faithfully,

L. Narasimhachar
